DANISH VETERINARY AND FOOD AUTHORITY

Official list of operators compliant with a product specification for a geographical indication pursuant to Article 45(1) of Regulation (EU) 2024/1143

This list includes operators who have registered activities in accordance with the product specification for a Protected Geographical Indication (PGI), a Protected Designation of Origin (PDO), or a Traditional Speciality Guaranteed (TSG), pursuant to Article 45(1) of Regulation (EU) 2024/1143.
The list, available on this page, constitutes the current overview of operators approved to carry out activities covered by the product specification for a registered geographical indication. It is updated daily, ensuring that newly registered operators are added to the list, and operators that no longer meet the requirements are removed. Operators listed are subject to ongoing control by the Danish Veterinary and Food Administration to ensure compliance with the relevant product specification.
The list replaces certificates previously issued to dairies with activities covered by the product specification for a registered geographical indication.
